PROFESSIONAL EXPERIENCE

AL-BURHAN MEDIA   **Remote**
Frontend Designer   **2022-present**
- Collaborated with a UI/UX Designer to design the media website project (The landing page and About page)
- Approved to join their core team members of designers, developers, marketers and managers due to proven design and coding skills
- Improved the responsiveness of the website, added the blog feature and bug fixes
- Promote the media by sharing the blog posts overview and links on other social media handles

HNG INTERNSHIP   **Remote**
Frontend Developer (Lead)   **2022 (3 Months)**
- Led a team of 13 Frontend Developers to work with 16 Designers, 15 Backend Developers, 2 Product Managers, Sales and Marketers, and 4 Devops, and launched a stock recommendation app, Yieldvest
- Promoted to be a finalist within 2 months due to strong performance and organizational impact (during the period of the internship)
- Designed the overall frontend of the product, prioritized and resolved 45+ new features and bug fixes
- Contributed to the open-source project, Zuri Chat and improved the users' experience by reworking the translation feature which now offered 5 different languages (English, French, German, Portuguese & Deutch)

PIHUB   **Remote**
Web Developer   **2021-2022**
- Worked with a UI/UX designer to code and implement the client side of the payment gateway
- Consumed the API provided by the Backend Developer and integrated it into the client side of the project

PLAY 2 WORLD   **Contract Project**
Web Designer   **2020-2021**
- Redesigned the gaming websites for the gaming website subsidiaries (Play2Help, Play2Work, Play2Learn, Play2LiveWell, Play2Health)
- Implemented the client-side validation for the websites, added new features and bug fixes
